Inpatient Experience Overview (January – June 2019)

The biggest challenge in improving the care experience for admitted patients is that we don't have a large enough admitted patient volume to be able to adequately measure how we are doing at providing care to our admitted patients. Between January 1st and June 30th we only received 13 inpatient surveys. We need at least 30 returned surveys to be able to validate the data as statistically significant.

Patient/Family Comments

Many thanks for all care - very grateful - like depth of my gratitude cannot be use of words emotion and timing. Sincerely.

Your staff is the best I've ever experienced during emergency.

I was extremely impressed w/staff. Nurses & dr. - Great service/beautiful hospital.

Excellent experience. Feel very fortunate to have such first class care on the island. Very impressed with facility and staff. Thank you!

Each person **CREATED** an atmosphere of real concern, professionalism - all were **NEEDED** - **VALUED** and **WANTED**.

From check-in to check-out, this was the best service/care I have received.

Doctor was friendly, professional, and had a calming demeanor.

We are so fortunate to have our ospital/emergency and the excellent staff who work there!

I don't think I could have gotten better care anywhere - I trust PeaceHealth -

Spouse accommodated due to weather overnight.

Everyone was great! Received a follow up call the next day - wonderful!

ER doctors were extremely attentive. I was very impressed when *Dr. Perez called me after a few days to see how I was doing and if I had done the recommended follow up. That was the 1st time I'd ever been called by an ER dr.
